TERMS OF SALE

1. Every item is guaranteed to be as represented, and to give satisfaction, as in all past Bolender sales.
2. All bids are by mail, in fairness to all those who could not attend personally.
3. There are positively no reserves on any item by anyone, and every lot will be sold to the highest bidder, at so much for the lot. All bids will be executed below your bids where other offers permit, in good faith. Where two or more bids are exactly the same on any lot, or tied, the lot goes to the first bidder at exactly his bid.
4. No unlimited bids will be accepted. Mark your highest limit on the bid sheet (on back page of catalogue), and if you need more space for bids, use any ordinary sheet of paper. We will buy as much under your bids as other actual offers permit.
5. New bidders or customers sending bids for the first time at these sales must positively give first class references, or else send a deposit of at least 25 per cent of the total amount of bids. References acceptable would be the name of some other dealer from whom you have had coins on open account, or name of some collector known to us, or else name of your bank. To those known to me who have established credit, purchases will be sent out promptly after the sale. In appreciation of this courtesy, the purchaser will remit promptly. Postage and registration or insurance is paid by the purchaser.
6. California buyers will be charged 3 per cent state sales tax.
7. The terms are prompt cash settlement after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.
8. A list of all prices realized at this sale will be supplied for 50 cents.
9. Please send your bids now as there is little time left before the sale date.

UNITED STATES PAPER MONEY
Formerly in the celebrated collection of
KING FAROUK, of Egypt

Note. — Every piece of paper money, whether large size bills, reduced size paper money, or U. S. fractional currency notes, in this sale, is from the King Farouk collection. In the auction in Cairo last March, it was sold in such huge lots, that collectors had no chance to bid. Here is your opportunity to acquire at least a few items of this now very popular series from a famous collection. In 1953 a new and very excellent illustrated book on the paper money of the United States was published. The author was Robert Friedberg. The reference numbers refer to Mr. Friedberg's book, and his valuations are given as a guide to bidding, although higher or lower prices may prevail, but all lots are to be sold without any limit, as in all past Bolender sales. Each note is in a heavy clear acetate holder.

U. S. FRACTIONAL CURRENCY

The King Farouk Collection

Note. — To interested collectors I can tell you that very little of this material is coming into dealers' hands these days, and the demand for it is constant, far exceeding the supply. Many of you have been writing to me for fractional currency notes. Here is your golden opportunity to get choice A-1 bills. My own stock is sold out too, and the time to get desirable material is exactly when it is offered. I can assure you that it won't get any cheaper, and I'll make a large wager that it's going up along with the old large size currency. This series has been included in Robert Friedberg's splendid book on paper money published in 1953, and is there illustrated and valuations are given. Wayte Raymond's Standard Catalogue has always been the only guide until Friedberg's book came out. Both are accepted authorities, and I have given both references, using R for Raymond, and F for Friedberg.

hence very rare. Brilliant proof. From King Farouk coll'n. \$60.

257. **1872 pattern Commercial or trade dollar.** Indian princess seated to left with pole & Liberty cap, flags, & globe, date below, 13 stars around. Rx. COMMERCIAL DOLLAR 420 GRS. 900 FINE. in wreath, GOD OUR TRUST on ribbon below, and UNITED STATES OF AMERICA above. AW-1252. Reeded edge. Copper proof. Ex. rare, said to have been only 7 coined. From King Farouk coll'n. \$100.
258. **1873 trial piece** from regular adopted dies of the year for the newly issued **trade dollar, struck in aluminum.** AW-1343. Rarity 13. Not over 4 or 5 struck. No record of any offered in sales or lists, except this one sold to King Farouk. The reeded edge is crudely struck; otherwise brilliant proof. Cost the King \$90, a low price considering its great rarity. I doubt that I may find another.
259. **1874 trade dollar,** silver. Two spots on obverse, otherwise brill. proof. Only 700 coined. From **King Farouk coll'n.** \$30.
260. **1878 trade dollar,** silver. Couple slight spots, but no scratches to mar it, almost brilliant. Proof. Only 900 coined. From **King Farouk coll'n.** \$30.

Note. — I am in the market to buy Morgan dollars of all dates and mints, as well as all other types of dollars from 1794 to 1935, including pattern coins too. With late date half-dollars, and other U. S. coins, even nickels too, now at high or prohibitive prices in uncirculated condition, many collectors are switching to this series, the Morgan dollars. I still think these are the best buy in the market today, with reserve stocks much lower than collectors realize, according to information at hand. New collectors are starting with these too, for they cost no more than collecting uncirculated one-cent pieces, and you have a larger and certainly more beautiful coin, and better for shows and displays. Also, in case of panic, the face value of your collection is 100 times as much, an item that would be helpful should days of darkness come. At the last two sales, more bids were received on the series of Morgan dollars, then on any other series in the sale. Coin market trends do change, and I have seen many such changes in my time.

267. 1879 pattern "**Goloid Metric Dollar.**" Morgan's design with small head, with braided hair put up at back of head, an extremely rare type. Reverse: UNITED STATES OF AMERICA 100 CENTS, circle of 38 stars, figures of metric system, showing this coin if adopted was to contain 15.3 grams of gold, thus reducing the size and weight of the dollar, by alloying gold with silver and copper. AW-1612. Struck in aluminum, as a trial piece. In this metal, much the rarest of this type. Drift mark across obverse, otherwise brilliant proof. Only 4 or 5 minted. From King Farouk coll'n. at \$80.

ANCIENT GREEK SILVER COINS

- 1250. **Carthage in Zeugitania** B. C. 410-310 silver tetradrachm. Head of Persephone. Reverse, horse's head to left, palm tree at right. Askew A2157. See Head page 878, fig. 392. In high relief, ex. fine, a splendid coin suitable for best collections. \$35.
- 1251. **Macedonia** B. C. 359-336 silver tetradrachm of Philip II. Head Hercules. Rev. Zeus seated holding eagle. High relief Philip was the father of Alexander the Great. Fine. \$10.
- 1252. **Metapontum in Lucania** B.C. 550-470 silver stater of Archaic style. Ear of barley. Reverse, same incuse. Size 24 mm. Ex. fine, slight edge defect on planchet, but sharply struck and desirable. Splendid coin of remote antiquity. \$40.
- 1253. **Syria** B.C. 226-223 silver tetradrachm. Head of King Seleucus III to right. Rev. Apollo seated to left, on omphalos. Struck in high relief. Very fine. \$25. Coins of this type were in use in Judaea and other regions under Greek influence for several hundred years, and are considered as part of the "Thirty pieces of silver" payed to Judas for the betrayal of Christ.
- 1254. **Syria** B.C. 162-150 silver tetradrachm of Demetrius I. Head of Demetrius to right, in wreath. Rev. Tyche enthroned holding sceptre & cornucopia. Head p. 764. Fine. Also classed as the type of some of the "Thirty pieces of silver." \$20.
- 1255. **Syracuse** B.C. 485-478 silver tetradrachm. Female head to right, surrounded by four dolphins. Obverse quadriga to right, with Nike above. Head page 172, fig. 91, var. Period of fine Greek art. Extremely fine, strictly so, and a beautiful piece, "of smiling style." This particular coin is a variety unknown to Behringer because it's obverse (quadriga side) is struck from the die listed as Behringer 317 (his obv. No. 154), and the reverse (head side) is like Behringer 301 (his rev. No. 209). Thus a rare die combination, probably struck earlier than his B-301, since the die break on this coin is not as pronounced. \$65.

1256. **Tarentum** B.C. 272-235 silver stater. Boy rider crowning horse as he rides to left. Rev. Taras astride a dolphin, holding trident; owl at right. Vlasto No. 834. Extremely fine. \$17.50. According to the story, tradition has it, that Taras who founded the early Greek colony was saved from a ship-wreck by riding to shore on the back of a dolphin.

ANCIENT GREEK BRONZE COINS

Oh! That each of these coins could talk and tell its own story! This part of collecting is a branch of archeology, and highly interesting and educational. Books on the ancient history of these Greek colonies are plentiful and very cheap in second hand book stores. And the coins themselves, authentic and guaranteed genuine as they are, remain low in price because the demand is not as great among collectors in this country, as the demand for Indian head cents. Get started today collecting ancient coins. Sure you have enough education to start, and you will learn more. The diameter of each coin is given in millimeters.

U. S. PATTERN COINS & TRIAL PIECES

(Formerly the property of King Farouk of Egypt)

NOTE — If you are an earnest collector of American coins, you should get more acquainted with the pattern coins, for they are closely connected with the regular issues collected, and many of them are more beautiful than the adopted designs. Also, the pattern coins are still reasonably priced, considering their rarity, and there is genuine collector's pride in owning at least a few coins, that other collectors do not have. With patterns this is easily possible, and I can tell you that it will enhance your collection to add some pattern coins. Not all of us may collect nearly a complete collection of them as King Farouk did, but most of us can get a few, even if you are a specialist, and collect only small cents, in which case, add a few pattern cents for thrilling interest. You may buy most of these at good discounts below the prices which King Farouk paid for them.

During my early years of collecting and dealing in coins 40 or 45 years ago few American collections were of much importance unless they contained an assortment of pattern coins. Then for 25 years, the pattern series was neglected. During the past 10 years pattern coins have picked up until today they have become very popular, judging from recent sale results. I expect to see interest in this series pick up a great deal more within the next few years, after two new books on the subject are published. These books are now being prepared by two of the foremost collectors in the field, and I anticipate great interest in this important part of our American coinage. The best book at present available is the book by Edgar H. Adams and William H. Woodin published by the American Numismatic Society in 1913, and of which there is also a reprint. There the types are illustrated, and the varieties described. The AW-numbers refer to this book. Illustrations and brief descriptions of most types may also be found in Raymond's standard catalogue 1949 edition. All of the coins following came from the Palace Collections of King Farouk of Egypt.

1424. **1836 U. S. Pattern Two Cents.** Spread eagle on cloud; around UNITED STATES OF AMERICA 1836. Reverse, TWO CENTS in large wreath. About same size and thickness of a Lincoln cent. AW-58, copper, plain edge. Red proof. Very rare, and the first 2-cent piece coined at the mint. Interesting experimental piece of the same year and same engraver as the 1836 Gobrecht dollar; also the first gold dollars (1836) were struck, considered, and rejected, as were these 2c pieces, and thus not minted for circulation. \$35.
1425. **1850 Pattern "Ring-Cent",** unperforated variety, dime size. USA ONE TENTH SILVER, circle or ring center. Reverse, CENT 1850. Struck in nickel. AW-113. Rare, not over 50

- coined. \$30. Such a coin will greatly enhance the interest and value of any collection of small cents.
1426. **(1850) Pattern "Ring-Cent"**, perforated variety, with hole in center as made. Obverse same as last. Reverse, UNITED STATES OF AMERICA around a wreath which is around the hole. AW-120. Silver proof. Coins of some other countries have been made with hole in center to save metal, and still keep size. Quite rare. \$30.
 1427. **1850 Pattern "Ring Cent"**, unperforated variety, dime size. Obverse CENT 1850. Reverse ONE CENT in wreath. Struck in nickel. AW-139. Rare variety, not in Curtis list, nor in Olsen coll'n. Brill. proof. \$40.
 1428. **(1850) Pattern Cent**, with blank reverse. ONE CENT in wreath. Dime size. Nickel proof. AW-141, not in Olsen coll'n. and lacking in most others. V. rare. \$40. (Old record \$35).
 1429. **1851 Pattern Cent**. Obverse with Liberty seated, stars, & date, similar to 20c piece and nearly same size. Rev. 1 CENT in wreath. Reeded edge. Pure nickel. AW-146. Very fine. Ex. rare, not over 15 coined. \$35.
 1430. **1854 Trial Piece for Gold Dollar**. Similar to regular dies, but struck in brass. AW-184, rarity 13, only 4 or 5 coined! Ex. fine. Cost King Farouk \$45.
 1431. **1854 Trial Piece for \$2.50 Gold**. Similar to regular dies, but copper. AW-183. Very fine, scratches. V. rare. \$20.
 1432. **1854 Pattern Large Cent**. Regular Liberty head and date, but **without stars**. Reverse UNITED STATES OF AMERICA around small wreath, ONE CENT within. Bronze proof. AW-187. Twice as rare as the ones in copper. Every collection of large cents ought to have one. \$30.
 1433. **1854 Pattern Large Cent**. Flying eagle, stars, & date. Reverse same as preceding. AW-191. Copper red proof. Common in bronze, but ex. rare in copper, about 15 coined. Unlisted by Curtis. \$30.
 1434. **1858 Pattern Flying Eagle Cent**. A very rare "mule" variety, not listed in Adams-Woodin book. The obverse is same as AW-241 flying eagle with small letters. The reverse is same as AW-244 laurel wreath as adopted in 1859. Copper-nickel, regular size. Brilliant proof. Ex. rare. \$60.
 1435. **1859 Pattern Half-dollar**. The beautiful design by Paquet. Liberty seated to left, with fasces & shield; 13 stars & date. Rev. ½ DOLLAR in wreath. Reeded edge. AW-287. Copper proof. Much more rare than book indicates, as none listed for many years past except this one sold to King Farouk. \$40.
 1436. **1859 Pattern Half-dollar**. Obverse same as preceding. Reverse: spread eagle with ribbon, UNITED STATES OF

- AMERICA HALF DOLLAR. Reeded edge. AW-292. About 100 minted. Copper. Ex. fine. Cost King Farouk \$35.
1437. **1859 Pattern Half-dollar. The handsome obverse design by Longacre combined with the regular reverse of the year and struck in silver!** Reeded edge. AW-301. Silver proof. Only 4 pieces coined, and none offered in the past 25 years, except this piece sold to King Farouk for \$210 according to the envelope. One of the prizes in the Farouk collection, just try to find another.
1438. **(1859) Pattern Half-Dollar**, a great oddity! Reverse only struck in copper. Same die as reverse of lot 1436 above. The obverse is blank except that the same design is partly struck on it, causing a great rarity, probably unique. AW-304A. Red proof. \$75.
1439. **1838 Pattern Half-Dollar.** Very large bust of Liberty to left, designed by Kneass, the popular "sunburst type" so-called from design on Liberty's coronet; stars & date. Reverse: same as preceding design of lot 1438 above, by Paquet. Reeded edge. AW-306. Copper proof, with very high wire edge. Ex. rare. Not over 15 struck. Only 2 listed in over 20 years, and this is likely the same coin, twice sold, and now from Farouk. \$65.
1440. **1861 Pattern for \$10.00 Gold.** Similar to regular type, but the motto on scroll above eagle reads GOD OUR TRUST instead of "In God We Trust." Struck in copper, bronzed. AW-338. Proof. About 40 to 50 coined. \$25.
1441. **1863 Trial Impressions for Silver Dollar struck in copper!** Regular type, Liberty seated. AW-370. Copper proof. Only 15 coined, but there were probably less, as none offered for sale in many years, except this one for which King Farouk paid \$88, a very reasonable price.
1442. **1863 Trial Piece of a Dime**, regular dies, **struck in copper!** AW-391. Brill. red proof. Not over 15 coined, and seldom listed. \$25.
1443. **1868 Pattern for \$5.00 Gold.** Paquet's design for an International coinage. Rev. 5 DOLLARS 25 FRANCS in wreath. AW-654. Copper proof. Not over 25 struck. France and Austria planned to issue similar gold coins each with their respective Emperor. The bill did not pass Congress. The only example for a proposed international coinage. \$40.
1444. **1868 Trial Piece for a Dime**, regular dies, **struck in aluminum!** AW-671. Brilliant proof. Only 4 or 5 minted according to the authorities Adams & Woodin, which I believe to be correct, as only one appeared in last 30 years, and this is believed to be the same from King Farouk. \$40.
1445. **1868 Pattern Half-Dime in Nickel.** Regular type, but struck in nickel on planchet $1\frac{1}{2}$ times as thick as regular issue, and with plain edge. AW-674. Brill. proof. Only about 30

- coined. This piece was formerly in the famous Woodin coll'n., and recently in King Farouk coll'n. \$25.
1446. **1868 Trial Piece for Half-Dime.** Regular dies, **struck in aluminum on thick planchet.** Ex. rare, only one found. not listed in Adams-Woodin book. From Farouk coll'n. as are all pattern coins in this sale. \$40.
1447. **1868 Pattern 5-Cents.** Obverse type of 3c nickel, but coin is larger, the size of 5c nickel. Star and LIBERTY on coronet, in relief. Rev. large V in wreath; IN GOD WE TRUST on scroll above. AW-676A. Copper proof. \$30. Of more interest in your collection of nickels than the 1877, and also much more rare.
1448. **1868 Pattern 5-Cents.** Obverse similar to last, without star. Rev. 5 CENTS in laurel wreath; motto "In God we Trust" above in very tiny letters. Struck on a very large planchet (size of a quarter) with broad borders. AW-685. Copper proof. Rarity 10. Only 15 pieces struck. \$30.
1449. **1869 Pattern 25-Cents.** Bust of Liberty to right, in cap, with 2 stars on forehead, motto on scroll below; around UNITED STATES OF AMERICA. Rev. STANDARD SILVER 1869, and in wreath 25 CENTS. Reeded edge. Silver proof. AW-754. Design of William Barber. The intention was to reduce the weight to prevent hoarding and importation, that they may be current whether gold were at a par with paper money or at a high premium, and that their value should depend upon the authority of their issue rather than upon bullion value. Thus, this coin is about 20% smaller and lighter in weight than the regular issue. \$25.
1450. **1869 Pattern 25-Cents.** Same as preceding, but struck in copper with plain edge. AW-755. Brill. proof. Any collection of quarters should be improved and made more interesting by adding such coins as this. Much more rare in copper than the silver piece. Not over 25 coined. \$25.
1451. **1869 Pattern 10 Cents.** Diademed bust r., no star, motto below on scroll. Rev. type as last, but 10 CENTS. Reeded edge. AW-787. Silver proof. 69 coined. \$20.
1452. **1870 Pattern 50 Cents.** Same type as the quarter in lot 1449 above, the dies by William Barber. Slightly smaller than the regular issue, and about 20% lighter in weight, this was an **experimental issue.** (Read description of lot 1449) Plain edge. AW-895. Silver proof. A rare issue, only 15 struck. Col. Curtis found none listed, and very few have appeared in last 50 years. Will greatly enhance the interest and importance of your half-dollar collection, and there is more to the story behind this coin. From Farouk coll'n. as are all these pattern coins. \$35.

-
1453. **1870 Pattern 50 Cents.** Same as preceding but struck in copper. AW-897. Red proof. Same rarity as last, only 15 struck. \$30.
1454. **1870 Pattern 50-Cents.** Same as last two, but struck in aluminum. AW-899. Only 15 coined. Curtis found none listed. Few big collections have it, I have found. Very many other half-dollars in your collection cost more, and are far less interesting. Add some of these now, while available. They are beautiful too. \$30.
1455. **1870 Pattern 50 Cents.** Beautiful bust of Liberty to right, without cap, but with diadem motto below. Reverse as last. Reeded edge. AW-908. Silver proof. Only 25 minted. Read description of lots 1449 and 1452 for part of the story of this **experimental issue**. \$30.
1456. **1870 Pattern 50 Cents.** Same as preceding, but struck in copper. Beautiful red proof. AW-910. Only 25 minted. \$30. Only 2 or 3 seen in last 30 years.
1457. **1870 Pattern 50 Cents.** Same as last two, but struck in aluminum. AW-912. Just as rare as last two. Seldom seen. \$30.
1458. **1870 Pattern 50 Cents.** Same obverse as lot 1449 above, bust Liberty in cap, with 2 stars on forehead. LIBERTY incuse. Rev. 50 CENTS 1870 in wreath, STANDARD above. AW-916. Reeded edge. Silver proof. Only 25 coined. This piece was in two great collections, first the Woodin coll'n., and more recently King Farouk's. \$30.
1459. **1870 Pattern 50 Cents.** Same type as preceding, but struck in copper. AW-918. LIBERTY incuse. Only 25 struck. Red proof. Will add interest and charm to any half-dollar coll'n. Col. Curtis found but one piece sold in this country over a several year period and that brought \$25 years ago. \$30.
1460. **1870 Pattern 50 Cents.** Same type as last two but variety that has LIBERTY in **raised letters**, and not incuse. Also this piece is **struck in aluminum**. AW-919A. Plain edge. Brill. proof. Another beauty, as are all these pattern coins, all from King Farouk coll'n. Col. Curtis found none, and big collections lack it. Only 15 minted. \$30.
1461. **1870 Pattern 25 Cents.** Same as lot 1449 preceding, except date. AW-940. Silver proof. Only 25 minted. A beautiful and interesting coin to add to your collection of quarter-dollars, both charm and value. Cheap at \$25.
1462. **1870 Pattern 25 Cents.** Same type as last, but **struck in copper**. AW-942. Rare as last. Red & golden proof. \$25.
1463. **1870 Pattern Dime.** Barber's handsome new design. Liberty seated to left, with pole & cap, right hand on shield with scroll inscribed LIBERTY, left hand holding olive branch; around UNITED STATES OF AMERICA, below

1870. Reverse: regular adopted dies. Plain edge. AW-1029. Silver proof. Not over 15 minted. \$25.
1464. **1871 Pattern 50 Cents.** Magnificent new type, handsome Indian Princess design, by Longacre. Stars & date. Rev. 50 CENTS in wreath, STANDARD above. AW-1133. Silver, brilliant proof. Only seven believed to have been struck. Just try to find another, and you will realize how rare this one is. From Farouk coll'n. as are all in this list. \$60.
1465. **1871 Pattern 50 Cents.** Same type as preceding coin, but **struck in copper.** AW-1134. Only 7 coined. A coin of great beauty and rarity. \$50.
1466. **1871 Pattern 50 Cents.** Same type as last two coins, but **struck in aluminum.** AW-1135. Only 7 minted. None have been listed nor offered in last 25 years, except this piece sold to King Farouk and now for sale here. Cost \$65, and worth it. A design of great beauty, by Longacre.
1467. **1871 Pattern Dime.** The Indian Princess design by Longacre, without stars. Rev. regular type. AW-1169. Silver proof. Only 7 or 8 coined. \$25.
1468. 1872 Trial Impressions of the Dies for Half-Dollar, **struck in copper!** Regular type, Liberty seated. AW-1261. Red proof. Ex. rare, only 4 or 5 minted. Try find another one, and you will wait a long time. This piece cost King Farouk \$175, which was a record. My estimate of its value \$85.
1469. **1872 Dime struck in aluminum!** Regular type, thick planchet. AW-1269. Brill. proof. Only 4 or 5 minted. A big rarity, only one listed in 25 years, probably this same piece, sold to King Farouk. In your dime collection, this would certainly be many times more rare and interesting than an unc. 1916 D dime. Cheap at \$50.
1470. **1872 Half-Dime Struck in Copper!** Regular type. AW-1270. Same rarity as last. Red proof. \$35. As rare as the 1802 half-dime which is worth over \$500.
1471. **1872 Nickel 3-cents struck in aluminum!** AW-1277. Only 4 or 5 coined. It will be many years until another shows up. Brilliant proof. \$45. This coin from King Farouk Coll'n. is 100 times as rare as a proof 1877 nickel 3c(same type), and also more unusual and something the other fellow does not have. You can depend on that.
1472. **1872 Two-Cent Piece, regular type, struck in pure copper!** The issues for regular circulation were in bronze alloy. AW-1278. Red proof. Only 4 or 5 minted. Another great rarity with none listed in many years, except this one. It is over 100 times as rare as the 1873 proof generally considered the prize in a set of 2-cent pieces, and may go at about the same price! \$50.

1473. **1873 Half-Dollar, no arrows, regular type, struck in copper!** Try find another one. AW-1344. Red proof. Only 4 or 5 coined. \$50. This piece in your collection of half-dollars, will distinguish it from all others.
1474. **1873 Dime struck in aluminum!** Regular type, no arrows, thick planchet. AW-1349. Proof. Same rarity as last, only 4 or 5 struck. Where else can you find one? Would surely be cheap at \$35.
1475. **1873 Nickel 5-Cents, regular shield type, struck in copper on small planchet** the size of an Indian head cent. Not known to Adams or Woodin, on small planchet, and believed to be unique! A great prize for the collector of freak coins. \$50.
1476. **1873 Silver 3-Cents, regular type, struck in copper!** AW-1356. Only 4 or 5 minted, this coin is over 100 times more rare than the same coin in silver, of which I once had in my stock at one time 320 proofs which is more than one-half of the total issue! Quite a statement but true. The copper one should be cheap at \$75.
1477. **1873 Two-Cents struck in pure copper!** Regular dies. Those coined for regular use were in bronze alloy. This one is struck on a thick planchet. AW-1358. Red proof. Only 4 or 5 minted, rarity 13. Cost King Farouk \$160, and a great prize in your collection of two-cent pieces.
1478. **1873 Indian Head Cent, struck in pure copper!** Regular dies. Those struck for regular use were in bronze, an alloy. AW-1360. Red proof. Rarity 13, which indicated only 4 or 5 minted. Cost King Farouk \$97.50.
1479. **1877 Pattern Half Dollar.** Head of Liberty wearing helmet to left. Motto above, 13 stars at sides, date below. Rev. spread eagle standing on flat pedestal bearing inscr. E PLURIBUS UNUM. (Error in Adams-Woodin book states this inscr. is "In God We Trust," but that motto is on obverse at top). AW-1515. Design by Wm. Barber. Copper proof. Not over 6 or 8 minted. None seen listed in many years, except this one sold to King Farouk, and now for sale again. \$75.
1480. **1877 Pattern Half Dollar.** Liberty head to left, by Morgan, similar to head on Morgan dollars, but smaller. Dotted circle around head, E PLURIBUS UNUM above, stars at sides, date below. Rev. eagle on spade-shaped shield in wreath, with motto on three sides of this design. (Not in Adams-Woodin book, but their AW 1526 and 1527 are alike, so possibly an error, and their AW-1527 should read reverse of 1509. Copper proof. Same rarity as last, and cost the King \$85.
1481. **1879 Pattern Silver Dollar.** Obverse the regular type by Morgan, Liberty head to left. Reverse, a much larger eagle than regular issue, and with spread wings with

- feathers pointing downward, and wings not upraised as on regular issue. AW-1584. Silver, brilliant proof. Not over 15 struck, and seldom met with. \$150.
1482. **1879 Pattern Dollar struck in Copper.** Obverse regular type, by Morgan. Reverse large eagle somewhat similar to above last lot, but with difference in arrows & laurel branch, also eagle slightly smaller, with E PLURIBUS UNUM above in small letters. AW-1589. Red copper proof. Not over 15 minted. \$100.
1483. **1879 Pattern for Silver Dollar.** The magnificent "Wash-lady" design by Barber. Reverse slightly different from design of last lot. AW-1591. Beautiful copper proof. Not over 15 coined, and in great demand. From Woodin & King Farouk collections. Sold in Dupont sale in November at \$165.
1484. **1879 Pattern Half-Dollar.** The "Morgan Head" as on silver dollars of the year. (Regular halves with Liberty seated.) Reverse large eagle. AW-1619. Red copper proof. Only 10 or 12 minted, but this may well have been our regular issue. This identical coin was formerly in the Woodin coll'n., later in Farouk coll'n. \$50.
1485. **1880 Pattern Goloid Metric Dollar.** Barber's Goloid metric design. Lovely head to left differing from all others. Reverse shows grains of gold, silver, & copper that were to be alloyed for this coinage if adopted. Between 50c & silver dollar size. AW-1643. Brilliant red copper proof. \$50. Watch these patterns go up in a couple of years after the two new books now in preparation are published.
1486. **1882 Pattern Quarter Dollar.** Morgan's magnificent "School-girl design." Rev. eagle to right, with wings upraised. AW-1662. Silver proof. Only 10 or 12 minted. \$75. One of most beautiful pattern coins.

RARE SCHOOL-GIRL DOLLAR IN SILVER

1487. **1879 U. S. Pattern Silver Dollar,** the beautiful design by Morgan, known as a "School-girl Dollar". Head to left. Reverse also much liked, eagle to left, with wings raised, perched on tablet inscribed with motto IN GOD WE TRUST. Struck in silver AW-1592. Brilliant proof. Only 10 or 12 minted. This identical specimen is from the celebrated William H. Woodin collection, and was later in the King Farouk collection. A similar coin in the Dupont coll'n. sold at auction last November for \$550.
1488. **1879 "School-girl Pattern Dollar".** From same dies as preceding coin, trial piece in lead, crude mint execution. Not in Adams-Woodin book, though it is listed in white metal, which may be what they called this piece. AW-1594A. Probably unique or nearly so. Envelope shows that King Farouk purchased this coin for \$80, not a high price for so great a rarity.
